Kenneth Griffin & co/Criminals who ofcourse we all know lied under oath, who with many others are part of all this theft. Pumping ,dumping, driving companies into the ground, getting away with serious criminal activities.

& is still walking free (hopefully not for long). Gets away with it through payments or donations & ■ to turn a blind eye because people are greedy.

Is there anyone out there who doesn't take a backhander & actually does their job. I also read that Griffin is employing 750 people across europe, which means that the guy is that complacent to expand his criminal empire for more fuckery to the masses.

I hope that by the amazing community this is & all the amazing hard work digging finding little gems of info etc,

That we know what is happening & through Directly Registering your Shares DRS will be the way that all these companies will shit their shorts.

Gamestop will start this ,we like the stock, Mo'ass is tomorrow but you already know that.

I wonder who will be left holding the bags, looks like Credit Suss has been getting really heavy ones.

Just keep printing the money ■ bail them out pay us & hopefully change the financial fuckery of the world.

DRS= MO'ASS.

Stay Zen

Peace out ,just felt like a ramble ■
