The fucking nerds. And I don't mean the guy that built his pc, I mean the 35 y/o I saw come in yesterday to buy two super Mario shirts to wear to a Mario movie releasing IN A YEAR FROM NOW. And this guys a regular. I can confidently say these people who have never felt the touch of a woman are keeping this company well above water and I love them for it. And there's no shortage of them. I didn't even know this many super nerds existed til I started at GameStop which now that I think about it, it really makes sense lol.
