By now, it is well documented, peer-reviewed, and understood that [Total Return Swaps](https://www.reddit.com/r/Superstonk/comments/pb22oj/the_puzzle_pieces_of_quarterly_movements_equity/) (swaps) are involved in concealing short positions, short interest, and is used to suppress \$GME price action. Furthermore, there is a basket of "meme stocks" that are anchored together due to swaps and is preventing the lift-off of Gamestop.

Plus there's that [active court case with Archegos](https://www.reddit.com/r/Superstonk/comments/xnbcgq/how_swaps_rehypothection_work_archegos_employees/) admitting to swaps involvement and may likely be linked to the recent Shortex Data exposure from Debit Suisse. I mention Swaps, because it is critical to everything about Gamestop's stock so if you haven't already seen it, checkout what I discovered about [741](https://www.reddit.com/r/Superstonk/comments/xnz7f8/found_741_its_the_swaps_code_from_doddfrank_act/).

Now before I jump into things, you may want to see where this going based on my last post - [GMERICA: Whale-Financed and The Activist Investors](https://www.reddit.com/r/Superstonk/comments/yefhfd/gmerica_whalefinanced_and_the_activist_investors/).

BuyBuyBuyYes just released an 8-K statement and what's interesting is that their **official Legal Counsel**, Clearly Gottlieb attached a statement too.

Who is Clearly Gottlieb?

A globally recognized elite law firm. These guys don't mess around and here's a shortlist of what they've done:

- * Restructured debt for [Countries facing insolvency and bankruptcy](https://en.wikipedia.org/wiki/Cleary_Gottlieb_Stein_%26_Hamilton#Notable_cases_and_mandates)
- * Involvement in [high-level, Multi-Billion dollar Mergers & Acquisitions (M&A;)](https://en.wikipedia.org/wiki/Cleary_Gottlieb_Stein_%26_Hamilton#Notable_cases_and_mandates): \$146 Billion for T-Mobile & Sprint, \$130 Billion for Dow Chemical & Dupont, and \$71 Billion for Walt Disney & 21st Century Fox
- * One of their partners, Lee Buchheit, basically [wrote the international law book for debt-crisis resolution](https://en.wikipedia.org/wiki/Cleary_Gottlieb_Stein_%26_Hamilton#Buchheit_and_collective_action)
- * [Won numerous awards](https://www.clearygottlieb.com/news-and-insights/news-listing/cleary-gottlieb-a-n-elite-firm-in-chambers-usa-2022-rankings) in prestigious publications in Law, Debt, and Corporate Governance
- * Just got ranked in [USA 2023 Rankings as a Standout Firm for "Litigation"](https://www.clearygottlieb.com/news-and-insights/news-listing/cleary-gottlieb-a-standout-firm-in-benchmark-litigation-usa-2023-rankings) (a fancy word for winning lots of law suits, clearly badasses)

Now why is this important to \$GME?

BuyBuyBuyYes just released an [8-K filing](https://bedbathandbeyond.gcs-web.com/node/16556/html#d377691dex51.htm) on October 28, 2022 and within that filing made references to the August 30, 2022 [prospectus about ATM](https://bedbathandbeyond.gcs-web.com/node/16406/html) (at-the-market) offering to sell shares and pointed to the **Risk Factors**. Basically RC and company had active plans on-going (for Jefferies to manage the sale of BuyBuyBuyYes shares) since August but officially announced it a few days ago.

This is NOT the first time RC and company has done this, and you'll see why.

Even corporate mainstream media (MSM) picked up on it:

[RC & co hinting at the \"Risk Factors\" inside the prospectus, basically firing a warning shot to the shorts](<https://preview.redd.it/p81i2a1le3x91.png?width=1320&format;=png&auto;=webp&s;=12ff999dc9a209acc03a22e4fe794306c3408833>)

Now going back to 8-K filing, because within that filing, the legal counsel and representatives of BuyBuyBuyYes have officially approved, stamped, and signed-off that the ATM offering is legit and it will happen even though BuyBuyBuyYes filed late. This removes any doubt for shorts to claim bullshit.

Furthermore, Clearly Gottleib goes the extra mile to list every top lawyer in the firm, including the office locations, and leaving a statement of opinion on the SEC filing. To me, this says Clearly Gottleib is ready to bat for BuyBuyBuyYes (remember those frivolous lawsuits accusing RC of a pump n dump after he already sold BuyBuyBuyYes yet the stock kept running?).

Here's the certification about ATM offering and opinion from Clearly Gottleib attached to the 8-K filing:

[I've seen my share of corporate letterheads, but damn this looks like a serious message to the shorts: \"If you want peace, prepare for war\" or probably nothing](<https://preview.redd.it/26q8ay43k3x91.png?width=1272&format;=png&auto;=webp&s;=5786fd0497edc06053b12de5c6ff952d599b6973>)

A Replay of Gamestop 2021

Okay, now for the connection to Gamestop.

In April 2021, Gamestop also [filed an 8-K](<https://news.gamestop.com/node/18746/html>) (notice the law firm's opinion on that compared to Clearly Gottleib on BuyBuyBuyYes) with a [late prospectus](https://news.gamestop.com/node/18741/html#suppcov160986_1) pointing back to Gamestop's December 2020 ATM share-offering warning about Risk Factors.

Here's MSM picking up on it, ****again****:

[April 5, 2021 - Gamestop filed 8-K with a late prospectus for ATM offering just like BuyBuyBuyYes](<https://preview.redd.it/6xik8tcom3x91.png?width=1328&format;=png&auto;=webp&s;=eeaa51ee2aec7453288e5ec5f9ae502c1063b49c>)

Are you starting to see where this is going?

Here is a comparison between the two prospectus, beginning with Gamestop:

[Gamestop's December 2020 prospectus, notice the details](<https://preview.redd.it/95rrphxy8x91.png?width=1344&format;=png&auto;=webp&s;=3347b07063a4180f69efd027840f2a8da26bd622>)

This was the first-time "short ****squeezes****" appeared in Gamestop's SEC filings as a RISK FACTOR (yes, I actually checked the filings). They said SQUEEZES like plural, ***as in many***. The prospectus also mentions the price range of the stock and clearly mentions Jefferies as the handler for the sale.

Now here's BuyBuyBuyYes prospectus:

[Legal Matters & Risk Factors - notice anything?](https://preview.redd.it/7hfwwt6f09x91.png?width=1466&format=png&auto=webp&s=49a03c7e299dda280cc846cd1a87209285e74822)

Like Gamestop, this is ALSO the first-time "short squeeze" has ever been mentioned on an SEC filing for BuyBuyBuyYes.

Now, I placed emphasis above, but what's crazy here is that BuyBuyBuyYes has explicitly stated the following:

>*We believe that the recent volatility and our current market prices reflect market and trading dynamics unrelated to our underlying business, or macro or industry fundamentals*, and we do not know how long these dynamics will last. Under the circumstances, **we caution you against investing in our common stock, unless you are prepared to incur the risk of incurring substantial losses.**

What company tells its investors DO NOT INVEST? LOL. Clearly, that's for shorts unless you are gambling options then whatever - this is not financial advice.

Credit to u/MamaRemembersUsenet for pointing out that the BuyBuyBuyYes is aware that the price of the stock and fundamentals is completely disconnected from reality, or in ape speak: DTCC is committing international securities fraud.

RC's hand-picked board members are well-aware the price is being suppressed on purpose and are making it known to all investors of its stock that extreme volatility is coming that's why they also included the range of the stock price for reference (probably to serve as a notice of what's coming to the shorts lol).

Okay, I think you know where this is going next..

Whale-Played: The Countdown to MOASS

If you noticed above, Jefferies has been the same handler for both ATM share-offerings.

This is a BIG tell because Jefferies has been the ONLY analyst that has raised the price target on [Gamestop](https://www.reuters.com/article/us-usa-stocks-gamestop-research-idUSKBN2BG2PQ) (in March 2021).

And Jefferies is still the ONLY analyst that has raised the price target on [BuyBuyBuyYes](https://www.reuters.com/article/bed-bath-jefferies-idTRNIKBN2Q30MF) (in September 2022).

Probably, coincidence.

Now why is any of this important?

Let's tie it all together:

****Because of SWAPS.****

Guess what happened after MSM posted Gamestop's article in April 2021? The following month in May 2021, the second sneeze began (Gamestop did warn "short **squeezes**"), which was later discovered to be caused by Swaps Rollover, T+69 theory, FTDs covering - take your pick or combine them all.

Every 90-days, due to swaps, there is a massive spike. However, ****this cannot be predicted**** since shorting hedge funds have been doing all sorts of bullshit to suppress the price action (like that orchestrated \$30 parabolic), but it is without a doubt that the stock will eventually run, again.

[Gamestop running in May 2021 - credit u/Vcriand for discovering Swaps](<https://preview.redd.it/7st33twx79x91.jpg?width=2438&format=jpg&auto=webp&s=c21d66eb6f05eaef0a9ffd97157c4507db4bdc8a>)

Conclusion: A Wombo Combo Squeeze is COMING

Here's a recap of events that have happened, on-going, or in-progress:

("A rising tide lifts all boats" -Meme basket 📈)

For Gamestop:

- * March 2021 - Jefferies price target hike
- * April 2021 - SEC filing with prospectus (Dec 2020) and MSM article coverage
- * May 2021 - see that picture above? Ka-BOOM!
- * Gamestop used the mini-squeeze to sell shares ATM and save Gamestop from cellar boxing

Now for BuyBuyBuyYes:

- * September 2022 - Jefferies price target hike
- * October 2022 - SEC filing with prospectus (August 2022) and MSM article coverage
- * November 2022 - it's about to get spicy

Basically, hedgies about to get fucked:

[NAKED SHORTING MEANS INFINITE RISK, WHICH MEANS INFINITE TENDIES](<https://preview.redd.it/agq09m7889x91.png?width=727&format=png&auto=webp&s=af6f69351bd43ec9650d36f077af326b61a57036>)

Now, I am not saying correlation equals causation or because of this then that happened.

All I am saying is this could be purely a coincidence and we may be in a simulation.

BUY. HODL. DRS.

MOASS IS TOMORROW.
