Not sure if this is the right place to post.

I have some USDT.

I want to put it somewhere safe after the FTX bankruptcy.

I saw the gamestop wallet has usd coin? What is that compared to USDT?

Is there a economical way to transfer USDT to gamestop wallet?

Would it be safe? Can I lose my crypto like what happened with FTX?

Would I be able to cash out gamestop wallet to fiat aud? Best way to do this?
