You can't change my mind. It's as easy as that. If GameStop was a dead play and us retail investors were just crazy, nobody would give a damn about GameStop or the retail investors. However we're getting more coverage than before and that just confirms a lot of things we already know:

\- Hedgies are fuk and they know it.

\- Hedgies PR departments (MSM) is trying their best to spread panic (unsuccessfully).

\- GameStop is the play of the century.

It costs us nothing to hold. Yet they are bleeding every day.
