Drs report.

54.28% (+0.00%) (+0 shares)

Hmmm gang battle of 55%.

This is the same since Friday #impossible lmao. (4000 shares difference) since Friday.

Yea sorry we didn't stop drsing. Hell my last go hasn't landed yet.

I won't go threw all the same numbers again instead a pep talk.

What drs does is pretty insane,  
Its beating hedgies at their own game.  
They have so many ftd loops,  
We just shoot purple hoops.  
Hedgies fighting to stay alive,  
We need to pass percent 55.  
I will have to admit this is kinda surreal,  
Imagine the pressure ken,loop,and susky must feel.  
I don't know when, and don't ask me how,  
But we took control and are the captains now.  
We will sail this ship, way past the moon,  
You don't believe me? You'll see soon.  
Gme alone is a definite thriller,  
Add drs and it becomes a killer.  
So register some shares, hell do it today,  
You wanna be a legend? Drs is the way!
