This table will automatically update whenever there is a change to available shares or borrow fee as reported in Fidelity Active Trader Pro. Note that these available shares are different than those reported by Interactive Brokers, which you can find at [gme.crazyawesomecompany.com/](http://gme.crazyawesomecompany.com/) and elsewhere. Fidelity's borrow rate has typically moved less frequently than iBrokers. I'll start the bot each evening to try to capture any late night and early morning movements. This is a work in progress so I appreciate any comments/suggestions. This bot is inspired by /u/Mirfster who manually reported these data for 6 months.

Please note that this is the first time I'm running this overnight. Not sure if it will keep running or if Fidelity will shut down on me. Either way, I'll restart in the early morning. Cheers!

Time	Gamestop Shares Available	Borrow Fee
------	---------------------------	------------

:- :- :-		
----------	--	--

21:08	75,959	5.00%
-------	--------	-------
