Just so thankful for our chairman and the stock. Thankful that we don't have adam aron literally fucking his shareholders and diluting the stock to death. I also can't believe how delusional the eh em cee people are and somehow have become more delusional. When you explain to them that 99% of eh em cees "DD" is literally stolen from Superstonk....lol they get reaaaaaaaally salty if you tell them that truth and even call Superstonk "Karenstonk".... LOL WUT?

The cherry on top of all this is their sub WILL BAN YOU IF YOU EVEN MENTION DRS!!! LIKE WHAT? REALLY???? Thats insane... in other words that place is compromised and bad actors run that shit stain.

Just appreciating what we have as GME holders and thanking my lucky stars i never bought in on movie stock.

So glad we discovered the retail kill shot with DRS. And knowing no one is selling, while GME puts out cs numbers every quarter. Its a nice comfy feeling.

DRS GME. Hedgies r fuk
