Hi guys, bit of a dinosaur from UK, struggling with my gamestop wallet activation. Would someone be able to help me activate it - read a few posts that active users can easily activate? not quite sure what to do, this is all super new to me.

I believe this is my wallet address... 0xA18860D6179bf223672Bb5dA7E9116f95E24A0b4 dont i need to have my name etc on the account - it just says account 1.

I need a lesson on this as this is our new world hah, I dont know how to get NFTs either - cant get it to link to the GamestopNFT page, maybe needs activation first.

Power to the players
