Excerpts from the article...

FTX bankruptcy court filing reveals Alameda gave \$1.6B in loans to SBF, others

FTX's new CEO John Ray III's court filing revealed that Sam Bankman Fried (SBF) got \$1 billion in personal loans from Alameda Research.

Ray referred to the situation as a "complete failure of corporate controls and such a complete absence of trustworthy financial information."

The filing also disclosed that Alameda lent \$543 million to FTX director of engineering Nishad Singh and \$55 million to FTX Co-CEO Ryan Salame.

FTX attacker continues swapping tokens; exchanges \$7.95M BNB for BUSD, ETH

The FTX attacker kept their hands busy on Nov. 17 and drained around \$600 million in one day. In three transactions, they swapped 30,000 BNB tokens for Ethereum and Binance USD (BUSD).

The exploiter currently holds \$11.8 million BNB and ETH, worth around \$346.8 million at the current price levels.

**Personal thoughts... **

I'm sure other crypto exchanges aren't doing any of this shit as well 'cause you know, that would imply a much bigger blowup than what is currently perceived. Everything will be fine. ■■

I guess imma just keep on Buying, DRS'ing and Holding GME stonks until they all rat each other out.
