So went from \$20. To \$200. In a few days. Then steady at around \$170. For a year or so. Then the idea was to split so more affordable but yet the same Co. With more income not to mention all of the new additions GME struggling at \$26. Same volume still trying to figure out wtf is happening? Oh anger more and more DRS. Even crime shouldn't be able to keep this down I just don't get it
