	Sum of Fidelity's count / legal shares			
	4,085,251,022	/ 304,516,136 =	13.412x too many shares	
	Because computershared.net pulls their numbers from official filings, their institutional/ mutual fund / ETF and insiders numbers are accurate if not underreported. Take those and divide by their percent ownership to get full float of <b>over 4 BILLION shares.</b>			
	<b>13.4x more shares than there should be</b>

@mbonce161

Fidelity released ownership numbers that would suggest there are over 4 BILLION **\$GME** shares in existence - 13.4x more than there should be!
