Twitter To Be First Platform That Lets People Buy, Sell NFTs Through Tweets

by Oliver Jones — October 29, 2022

200 SHARES

Twitter a social media platform that announced today it will let users to trade or buy, sell, and display NFTs directly through four other NFT Marketplaces. This new feature called as NFT Tweet Tiles, allows users to display their artwork on an NFT in dedicated panel within a tweet, and which allows users to click and visit the marketplace listing.

This feature is currently being tested with Flow
