Dear Reader,

I am a student, who wants to spread awareness to the DRS centered influence on the Gamestop stock and the purpose of the community to direct register their shares.

For my bachelor thesis I investigate awareness of the direct registration system, influence of constant buy-power on stock price and volume of Gamestop stock and as much as I want to highlight the driver behind the "movement" I will refer to the achievements acquired through this sub (Superstonk).

For this I've set up an examination with following questions. I would appreciate if I could have a little of your time, by you answering my questions in this questionnaire. *(Please answer the questions in an enumerative way and in your own words):*

1. Which event/evidence in the last 2 years made you confident that the direct registration process at the transfer agent is in your best interest? (Bullet points or ample answer. both possible)

2. How was your investment handled before? Who took care of your investment? Who was beneficial owner? *(Similarities in questioning can be answered in one)*

3. What was threatening to your investment before DRS? (Bullet points favored like "naked shorting through unauthorized lending" etc. ...)

4. Do you think DRS will diminish/cease the threat to your investment? *(Yes/Neutral/No) If "Yes" please give a little statement on how the threat on your investment is ceased through direct registering.*

5. Do you feel influenced when it comes to direct registration? *(Yes/Neutral/No) If "Yes" is your answer please share with me who influenced you.*

6. Do you feel influenced from some to not direct register the shares you (beneficially) own? *(Yes/Neutral/No) If "Yes" is your answer please share with me who influenced you.*

7. Do you ever imagined someone could take advantage on you direct registering (or constant buying)? *(Yes/Neutral/No) If "Yes" is your answer please share with me how you could be disadvantaged.*

8. What is your personal goal in the direct registration process of Gamestop stock? *(What is the payout you expect?)*

9. What is your preferred trading instrument? *(Stock(long), options, futures ...)*

10. How experienced do you see yourself when it comes to the stock market and trading? *(High experience, low experience, mid experience ...)*

11. What states your experience? *(life career, working background, trading since(year****), reading DD ...)*

I thank you very much for doing my questionnaire and helping with my examination.
