I requested DRS for Gamestop shares from my broker side (ibkr) on Nov 9th.
Called on 14th (Monday) and guy informed to check back the 15th. He told me to just go through registration as investor with SSN.
Did the registration on 15th, got an email verification and was presented with, Verification code from letter or online verification.

Selected online verification and few questions later have full access to account.

Only difference I see is the shares are showing 'uncovered' with no cost basis. Does it just take more time?
