E*Trade DRS experience

Long story short, waited on hold for about 20 minutes; spoke with two very nice reps; second rep had my shares DRSeD in about 10 minutes; said my GME shares should show in Computershare within 3-5 days.

I've had half my shares with CS for a few months, but went ahead and went 100% into CS. I'm now buying all future shares through CS.

I'm posting my story to let people with E*trade know that it isn't difficult at all to DRS. I don't have much, but every little bit helps!
