Boo hoo - down vote all you fan boys want, but there's no ridiculous GME payout. If you honestly think the makers and rulers of this game are going to simply allow you to bankrupt and liquidate them - you're deluded. They can simply change to rules as often and as varied as the like. And stop believing DRS is going to save your day - it's not. They'll simply ignore it - as they have done for every other rule. DTCC? Fraud? Horseshit. Do something about it. Prove it. No ? Then sod off. Keep daydreaming.
