So in the beginning I was told about RHood and their helping the Hedge funds by turning off the buy button. So I moved to a more reputable broker because of advertisements here and elsewhere. Then I find out their loaning out my shares and helping the Hedge Funds. So DRS GME is the way to my future. Here a question, not me I'm broke but wonder if their is a way to contact Computer Share and work with them on a commercial/advertisement? Some way need to bring this out in the open. I never heard of CS nor would I have known the reason. I think it's time to let the world know they're is a safer way to trade. J/S I think it's the only way to stop Brokers from scandals and manipulation. I don't know just a thought.
