I've finally got round to downloading the GameStop wallet but can't currently afford the minimum deposit of \$100 to be able to activate it, it says it'll cost 0.000141 ETH (\$0.17) to do it but every penny from my recent paydays has gone into GME and I'd rather not sell just to deposit and activate. Or the alternative is wait for January payday which is fine but I thought I'd be cheeky and see if a fellow ape could help. If you can help please PM me and I'll send the address.

Completely understand if not as I'm just a stranger on the internet ■
