In light of the SEC giving the okay to remove the 1 billion cap on using pension funds for x,y,z manipulation with a new cap of 35 trillion with a T. I think we will have more of a moral responsibility to fix this mess and to help out the innocent victims. Because we know the "too big to fail " will all get bailouts with nothing for the common man.

Us diamond hands will be the bailout for these teachers, pensioners, unions, and state workers, etc...

It's up to us after MOAZZ to make sure these people can still retire with more than what they had. Why more? Because we know their accounts have been robbed since day 1!!!

The days of these financial predators are coming to a close.

"A new dawn arises, the time of short hedgies is coming to an end. The Era of Diamond handed apes is upon us!!!!"

We will fix this world, we must. Or else we are no better.

Love you all. GME rica for life!!!
