Yeet the Rich

Get the \$50 FTX card from Gamestop. Open an account with FTX. You will get \$70 worth of crypto with the card. Link FTX to your checking account. Xfer your ETH to FTX. Convert to USD. Send it to your bank.

While you're at it, apply for the new FTX Visa debit card. You can use it to purchase with ETH anywhere Visa is accepted. GL!

Power to the Players

I think this needs its own post.
