I also want to clarify I am never selling. Unless I see beyond phone numbers for 1 share or ken and company are in jail getting fucked by a bedpost.

Anyways I donno... just kinda numb to literally everything with GME at this point. Any day thats green? Eh who cares its only gonna lose those gains the next day or next week...

Rrp numbers? Who fugging cares. It means nothing to me and my stock still trades at 24 basically for life...

Feels like we will just trade at 24-28 for the rest of eternity at this point...

Sooooo fucking tired of constant crime and price discovery not existing on this stock. Just trying to stay zen in these uncertain times.
