Dear valued client,

Webull Financial LLC ("Webull") is pleased to notify you that we will become the carrying broker for your referenced account pursuant to our new omnibus relationship with our clearing partner Apex Clearing Corporation ("Apex"). Over the next several months, we will be migrating all clients from a fully disclosed to an omnibus clearing arrangement as the carrying firm.

Circumstances Necessitating the Transfer: Webull is transitioning its clearing relationship with Apex from clearing on a fully introduced basis to clearing on an omnibus basis. This means that your cash balance will be held by Webull that is protected under client-protection regulations and safeguarded under the SEC's customer protection rule. Your securities will continue to be held by Apex, and your trades will continue to be cleared through Apex. We believe that this new omnibus relationship will enable us to improve our service offerings and provide you with the best possible investment experience.

The new clearing arrangement will not impact the in-app or platform experience related to account access, trading, market data, and the products and services you are used to. Bookkeeping functions and other administrative functions will be handled by Webull. This includes investor communication notices, account statements, trade confirmation, and tax reporting. Proxy, prospectus, regulatory notices, and voluntary action notifications that will be sent from webull@prospectusdocs.com and webull@proxydocs.com.

There is no action needed on your part for your account to be transferred to Webull's new clearing platform. Unless you exercise your right to opt-out as described below, your customer account(s) carried by Apex will be transferred to Webull (the "Transfer") in 30 days of the date of this letter. If you have multiple accounts, you will receive separate notifications for each account respectively. Please note that by continuing to access and use our services after 30 days of receiving this letter, you agree to the new terms and conditions.
