Old faithful SS has been mighty sus lately. Mods now sittting behind a "contact us" link with zero transparency. Proposing ridiculous rules. Banning OGs for the most benign reasons. Post quality is absolute shit ( RIP Satori ). All in all just a really disappointing demise of a once great place.

We don't get as much news as we used to. We don't get insight into rules like we used to. We can't even post purple circles anymore. Death by a thousand cuts.

I feel like they are purging/have purged all the OGs and allowing for bots and shills to run rampant. Comments are straight trash. They are trying to make it out to look like everyone in SS is a "new ape."

It's sad to watch. It's sad to see more relevant news on baby stock sub or even this sub.

My hope is that all the ousted OGs that contributes great things to the community will come forward in this post and maybe one day create something that can't be influenced by shitty institutions trying to cover up their criminality.

The genie is out of the bottle.  
I love you all.

TL;DRS

What used to be a utopia for apes (SS) has become a sub purged of OGs and repopulated with shills/bots. Mods list isn't visible to the public.

Let me hear your thoughts. Buy through computershare and if you haven't DRS your GME!
