Hello everyone I have bought XX shares and continue to add every 2 weeks (paydays). I just got paid Friday and want to buy more. I moved my shares from Robinhood to Webull back when Robinhood pulled the fuckery of a lifetime! After I moved them to Webull a couple months later everything was DRS! Well I asked Webull and I believe they said it was \$100 per name and I'm a poor I live paycheck to paycheck so I got the \$75 to transfer from Webull to fidelity! I asked to DRS 1 share of GME as I can't afford to lose more money if I loose the share all together. They said it was received 9/21/2022 we are now at 11/20/2022 and I still have yet to receive mail from computer share saying I have an account and would love to send all my GME over there!

TLDR; I DRS 1 share 9/21/2022 and haven't received mail saying I have a share DRSeD, should I call and give the reference number and see if they can get me access or just keep buying on fidelity and transfer when the mail comes?
