OMG ICAHN IS SHORT

OMG WAKANDA FOREVER HASN'T DONE ELEVENTY BILLION DOLLARS

OMG FTX CRASH COULD DESTROY MY GAMESTOP WALLET

OMG RC AND AA ARE DILUTING....

Guys... it's endless. Nobody is EVER GOING TO TELL YOU THE TRUTH in the MSM. The truth is it is going to happen. The only question is when. The shorts have NO WAY OUT of this. They push the price down with more shorts. Nobody is selling at these prices.

Can they do it for another month? Another year? Anything is possible... but they cannot CLOSE. Closing will bankrupt them and eventually destroy the entire market (which, by the way...is the goal of this pursuit...)

Do you need to chase the next thing? Grayscale? Binance? Genesis? The Yen? The Bank of England gilt? Lockdowns in China? It's up to you...but it will not change the outcome, nor will it make it come any faster. T+2, T+35, T+90 T+++++...

I highly recommend a nod and smile approach, because most of the people posting these things are not on our side...
