IMO, not sure how the Swiss National Bank will be able to stop this bank from imploding.

First banking domino to fall? If not, they are certainly hanging at the edge of the financial cliff by the nails (including toe nails). If yes, many of its friends are sure to follow. Hello UBS, Deutsche, etc...

Buckle up and make sure your GME stock is DSR'ed. It's likely gonna be a violent ride when the banking derivative bubble bursts.
