In all of the GME subs, I see constant arguing over what's going on these days with GME, and even about the numbers and the reports. (short interest, etc)

It's so annoying. I've DRS'd every share (XXXX), but I'm not buying anymore because 1) I can barely pay rent now, and 2) other than DRS, nobody knows what the fuck is happening anymore.

Some asshole said this was a "20 year play".

I'm sure I'll keep a few that long but that's not what I signed up for. I'm here for MO' A\$\$\$. period.

If we put crooks in jail, that's great too, but before I joined a crusade to save the world, I joined to give my family a better life, my kid (who ACTUALLY is on the autism spectrum) a chance to have the resources needed to have a meaningful and productive life.

I think we just need a big ass run-up like June 2021 for morale purposes.

That would be soothing. Fuck forever sideways shit.
