

Title: The real math behind their fake article. If you purchased 20 years ago like the article states in 2002 the price was roughly \$2 per share. \$100 would have bought you 50 shares at \$2 per share. Factor in the 4 to 1 splividend and you have 200 shares at \$28.05. Totaling \$5610 with an ATH of \$100,000
