Things you need to know:

- 1.) every major market crash has occurred late Sept-early October
- 2.) you cannot close a short position without buying back shares
- 3.) as the owner of the shares, you control the price **YOU SELL YOUR SHARES**
- 4.) we are not fighting this alone (look at the yen, the bond market, the Fed, credit default swaps...)
- 5.) the answer has always been the same... the only unknown is when
- 6.) this is tied to something much bigger
- 7.) once it happens, you need to have a plan to get yourself, the money, and your family safe (start now if you haven't already)

When GameStop and the rest take off, remember... do not become the people you fought.
