Edit: Wahid Chammas was the guy I believe. Sorry for the lack of proof, but I wasn't recording and you can't listen back until the space is over and the host releases it.

Did anyone else hear this?!??? Dude was getting a bit heated and he was listing, quite angrily some risky exchanges, FTX, crypto.com, Gamestop –

Then he obviously realised and said .io, and kept talking. It is on their minds.

As someone originally from cryptocurrencies, I can guarantee you all that the Gamestop wallet, ImmutableX, Loopring, nft.gamestop.com, they all deal with ownership. Not stupid greed that these failed and soon to fail CEXs have.
