Seems like he's trying to take credit or be the next dfv. If anything Mark Cuban, Ryan Cohen, and Roaring Kitty have already said all that needs to be said.

Just no clue why lauers name keeps popping up, why is he so important again? Wasn't he the one that said the squeeze isn't likely?

Who's side is he on?

Damn, I appreciate seeing Dr Trimbath posts more than David posts. No clue who this guy is, where he came from or why he's so relevant.

As far as I'm concerned he's just another front man trying to sell his product.
