A true scandal is opening for the Biden administration.

April 25, 2019: Biden announces his presidential campaign.
13 days later, Sam Bankman-Fried, son of Barbara Fried (Stanford Professor and co-founder of political fundraising organization "Mind-the-Gap), launches #FTX crypto exchange.
The exchange is magically an overnight success. SBF becomes biggest donor to Biden.
Election day, FTX implodes completely.
If you think this scandal is done, it goes even deeper.

Gabe Bankman-Fried, brother to Sam (also a former Jane Street trader), is founder of "Guarding Against Pandemics"
He was a Legislative Correspondent for the US House of Representatives and an advisor to large political donors in the Democrat party.
The family Aunt Linda Fried is a WEF member on the Global Agenda Council on Aging.
The father, Joseph Bankman is a Stanford professor who has lobbied on behalf of Hedge Fund managers before Congress before (film records exist).
FTX Head of Ventures & Commercial at FTX Ventures Amy Wu, started with the Clinton Foundation years ago.
Nishad Singh FTX Director of Engineering has spent over 8 million for Dem candidates.
And finally Obama's Commodity Futures Trading Commissioner, Mark Wetjen was literally the head of FTX Policy & Regulation.
Reports were the organization wanted to spend over a billion dollars on the Democratic party for 2024.

A massive, massive money laundering operation has just been broken open.

WTF are people doing still posting updates about the ballot totals. THE ELECTION SHOULD BE CALLED OFF IMMEDIATELY. It was just PROVEN the #WorldEconomicForum partner #FTX laundered money for the democrats by means of a #WarFund through their exchange & then converted it to cash & sent it back as donations. EVERY SINGLE PERSON & NEWS SOURCE SHOULD BE SHARING THIS!!! NOT ELECTION UPDATES. THIS IS ELECTION INTERFERENCE BY FRAUD 🇺🇸 🇺🇸 🇺🇸
