Hi Everybody,

Longing4Uruanus here to drop some short but sweet DD on you all this wonderful Tuesday to balance out all the FUD.

As of this writing the Gamestop Wallet app sits at #6 in finance right above Chase in the iOS app store. Chase has a market cap of approx ~ \$400 billion where Gamestop has a market cap of approx ~ \$8 billion (both rounded up). Simple ape math shows GME undervalued by at least 50x it's true value, If not much, much more.

So forget all the FUD. Shorts, no matter who they are, are simply wrong. You're not stopping Web 3. You're not stopping gaming. You're not stopping the DRS movement. You're not stopping GameStop. The rocket is already launched, and now Ryan Cohen has time to do interviews. If he has time I wonder if his work making GameStop profitable is slowed down. Stay zen, laugh at the FUD, and I'll see you next time.

Sincerely,

Your wife's boyfriend
