As long as you don't mind me talking through a mouthful of cheetoes and burritos, and I will be playing Gundam Evo during our interview, so if I get caught in a bad spot, you will have to wait for me to dig myself out. Also, I hope you like Voices from Saosin, cause I never stop listening to it and it will be playing in the background.

Also, I'm hella dumb. Like super fucking dumb. So I don't know a lots of stuffs about Market things, only a little stuffs about GME Market things.

Mods, I am at your mercy. Take this as you will.
