The guy who was banned from Superstock seems to have bots trying to get people to join his sub called DRSingGME. He got banned for trying to collect donated funds to advertise DRSing GME and refused to provide proof of donation and having used said funds for advertising or pics of progress.

I guess he's doing mass DMs now. Either way I wouldn't really recommend joining considering this past

To be clear I was DMd about a purple circle post and I have not posted anything like that recently so it immediately came off as a bot and didn't turn out to be much better

Stay cautious guys, take care I hope no one gets scammed by him anymore

Pic in comments thx guys
