I've been sort of holding back from the trading screens during the summer just because of all the other stuff going on...you know, like whatever people do during the summer (I have no clue..) Anyhow, I felt like adding a few GameStop shares again during this month to my pile of DRS'd shares.

[Look, a picture for proof. It's actually 21 shares, because I had some fractions and the totals went above 1.](<https://preview.redd.it/1ke1zb5w82p91.jpg?width=1370&format=jpg&auto=webp&s=73db920a3d098b43fc7f8b0fb6b2e47bb2a32352>)

Soo, adding in small increments, slowly and steady direct through ComputerShare. I don't care about the price, because it's `*wrong*` anyway.
