\$Gamestop Corp GME short volume today was an insane amount of (((84%))) of all shares we're sold short into the lit market to intentionally mash us down the 7.99% red on the day while all our retail buy orders got sent to the dark pools instead. This rigged crime will only end by a major definite catalyst or things legally done about it by the company or us all DRSing up the float to over 74.1%. I am absolutely correct that the supposed reported SI of GME at 20.90% is a flat out fraudulent lie. 🤔🤔🤔🤔🤔🤔

DRS EVERYTHING TO END THIS CRIME!!!!!!!
