

Title: What's everyone doing with their GME crypto wallet funds/NFT's in the event of death/beneficiaries?

Since death can come at any time, I started setting up my stock beneficiary information today and realized that my crypto wallets (GME and LRC) are not set up for such a thing. I know how unsafe it is to be saving keys to a phone by any method, so just curious what others are doing to ensure their loved ones get their respective tokens/digital assets?!
