You phoned this morning with a query regarding not being able to trade your Gamestop shares and an incorrect value of the shares showing in your HL Stocks and Shares ISA.

I have contacted the relevant team and they have explained this was due to a grey market.

During a grey market, large investors or financial institutions place deals in the US stock market which will affect the buy and sell price. When viewing your account online you may experience a discrepancy in the price feed for your equity holdings.

The Online Support team have confirmed the value of Gamestop is now showing correctly in your account.

Apologies for any inconvenience this has caused.

The US stock market is open from 2.30pm until 9.00pm Monday to Friday. If you would like to place a trade out of the marketing hours you can place a fill or kill order.

Below, I have included how you can place a fill or kill order if you so wish.

A 'fill or kill' is a type of order you can give to buy or sell at a specified price or better.

If your order can't be 'filled' at this price, it will be 'killed'
