## Feedback Detail

Thank you for reaching out. This is Lila and I'd be happy to help.

For an outgoing DRS to Computershare, the attachment document must be signed. Please specify your Webull account name and account number, the security, and the exact number of shares to be transferred so that we can offer you further assistance.

Each DRS is \$115 per security, which must be in the Webull account as available settled cash.

Thank you for your understanding. Look forward to hearing from you soon!

Sincerely, Lila Webull eService Representative
